

SONIC BLISS

Sound Healing Experience Returns to the Domes at White's Creek

In a Sonic Bliss Sound Healing Session, your body is bathed with sound while you lie on the floor in meditation. The healing vibrations of didgeridoo, voice, flutes, gongs, singing bowls, bells, & chimes resonate every cell in your body in a powerful yet soothing and blissful soundscape masterfully created by healing arts practitioner & musician, David Blonski. This experience helps restore balance to the body, mind, and spirit, relieves stress and opens your mind to inner insights, spiritual inspiration and the experience of bliss. Sound therapy can be an amazing experience with just one instrument ... imagine a healing symphony of sound as the voices of instruments from around the globe are lovingly interwoven into a lush soundscape of indescribable beauty.

Monday October 30th
6:30 - 8:30 pm

\$30

Space is limited
to 11 participants
Pre-registration
required
